

THE SALVATION GANG

The band from the Frankfurt am Main area have come together to bring music to the stage that makes statements, tells stories and resonates. Founded at a time when society feels more unstable than it has for a long time. In which guilelessness and naivety are growing into existential threats. "The Salvation Gang" ventures into dystopian future worlds and aims to shake people awake. And yet not give up hope of a happy ending.

The Salvation Gang from Frankfurt "with raw guitar, casually swaying drums and uselessly rebellious vocals. Their music nibbles the scab of everyday constraints off our knees and puts the sweet and savoury taste of freedom on our tongues." (FIESTA VIKTORIA FESTIVAL, BONN)

"The Life and Death of Julia Z." by The Salvation Gang places a young woman at the centre of a future narrative who gradually drifts into a violent and extreme right-wing scene and loses her life at the height of her tragic work, standing at the centre of power. This dystopia - drawn in a time in which the danger of realisation seems more realistic than ever - does not end without also sending a message of hope for a different future."
